TO THE WORKINGMEN OF THE UNITED STATES—If you will agree to live in as poor a house and eat as poor food and receive as low wages as the people in England receive we can produce as cheap goods as a democratic administration wants to see.—[JAMES G. BLAINE.

One week from today will take place the election in Vermont and one week from that date the election in Maine. Those who will be fired from mountain howitzers and will fill the democratic ranks with terror and dismay.

The spectacle of Grover Cleveland, attempting to bolster up his shattered and waning campaign, by calling upon congress to grant him permission to use the army and navy is pitiable. Indeed, poor old Grover, when he dies he will die all over. His case is hopeless.

While apples and peaches are, in many orchards, rotting on the ground, the prices keep away up at short crop figures. There is something wrong somewhere. The people should have the benefit of the abundant crops, but if prices are to range so high many people are shut out.

Editor Bickham writes an open letter to Postmaster Gillespie, of Dayton, in which he charges that copies of the *Tax Reform Advocate* were placed inside the *Weekly Journal* and delivered, in that form to the major's weekly subscribers. It is charged that the trick was worked by employees of the postoffice department.

The democrats of the Seventh district meet at Morrow today, to nominate a candidate for congress, in opposition to Hon. Henry L. Morey. Jimmy Campbell has been persistently declining a re-nomination, but at the same time his heels have been hard at work and he will undoubtedly be the candidate. Jimmy is a sick citizen every time.

The Cincinnati Commercial Gazette has inside information to the effect that the democrats have polled both Indiana and New York, and the result is so unsatisfactory that they have suppressed the report. The democratic campaign is being run on the "claim with confidence" plan, but they will be an awful lonesome crowd after November the 6th. The result of the poll will then be made known in spite of them.

The unreasonable weather, coupled with the sudden and extreme changes in temperature occasions much serious and troublesome sickness. Our people should be all the more careful as to diet, clothing, pure sinks and clean premises generally. A careful regard for these conditions is a great preventative for sickness, and more especially under the present atmospheric conditions.

The report, of the committee on teachers, on the resolution offered by Dr. Wilkinson some weeks ago, was undoubtedly the most business-like and practical solution, of the difficulty, when the best interests of the schools are considered. The point which Dr. Wilkinson desired to make is made in the report, and is done in a way not to cause disaster to the schools. The report will be found in the proceedings published in another column.

Cleveland's jingo message was a blundering campaign device which failed to connect. J. B. Townsend, chairman of the democratic state committee, was in the scheme and attempted to work it in this state. Here are his instructions to lieutenants in different parts of the state:

"Have prominent Irishmen send congratulatory telegrams to President Cleveland on the delivery of his message and get up demonstrations if possible."

But "Me and Dan" are not taxed with reading "congratulatory telegrams" from the "prominent Irishmen."

The free trade poker had grown so hot that the democratic leaders were overjoyed when they found an opportunity to let out and catch on to the president's fishy message. But they can't get away from it. The free trade brand is upon them and it will be compelled to wear it. The mark is burned deep into the flesh.

The New York republican state convention which convenes at Saratoga this afternoon, will nominate ex-Senator Warner Miller for governor. Who the candidate for lieutenant governor will be is not so easily told, but he will be a gentleman.

Mr. Blaine is engaged in pulverizing the democratic party. His Lewiston (Maine) speech was another vigorous blow.

DELICIOUSNESS OF RUSSIAN TEA.

The cuisine in the hotel and good restaurants is very fine, and comfortably good in the cheaper houses we have tried. Nowhere is living dear. Tea, most delicious, with nice bread, and enough for two, cost eighty kopecks, and a drink left to the waiter of say ten—In all about forty cents. Chocolate, two tumblers full, and bread or cake for two, same price. A good dinner of soup, two kinds meat and vegetables, with a complate and glass of beer, costs in the best places, for two, about \$1.10 of our money. The same at a respectable place, but not so well prepared, yet good enough, about thirty-five cents per person of our money. I make it a rule to try all kinds of places where food is clean and respectable. Russian tea is very fine. It is served thus: A teapot large enough to hold one large cupful, and half full of leaves, is placed before two persons, with another large pot of boiling water. We half fill our cups from the teapot and fill up with hot water, and, if desired, with cream or with milk, at the same time filling the teapot with hot water. In this way we can have as much as we can possibly desire.

Notice Russians drinking and refilling until the decoction coming from the pot is barely colored. We, however, refill only once, getting thus two large cups of delicious tea. The third up is strong enough for table use. For each portion twelve lumps of sugar, furnished and bread enough for a fair breakfast. I notice Russians putting sugar in their mouths and sucking the tea through it or eating it after swallowing some tea. This, however, was done simply as a beverage and with a slice of lemon. One disgusting habit is common here in the better class of restaurants. A glass of water is served after the meal, with a finger bowl. The mouth is washed and the water is poured out of it into the finger bowl. I have heretofore seen this done at many tables d'hotel on the continent, but here so far it seems universal. There is nothing in this really filthy, but it is suggestive of nastiness. I have seen it among travelers in America. It is a habit I hope will not take deep root even in our swiftness. To wash the mouth before smoking is a luxury. But there are some things which are better done behind a screen than in full view.—Carter H. Harrison in Chicago Mail.

Art of Window Dressing.

The shop windows have put on their last persuasive touches as the season wears. The milliners' windows look like aviaries in which bonnets and hats are strutting like birds of gray plumage. But nothing is done to attract the feminine eye more skillfully than that which allures the men. The artistic possibilities of neckties are shown in many ways. One enterprising dealer has hung his entire window with long neckties spotted with spots and waving lines. The illustration is of a very deep sea and very tall. On another street red and blue shirts are made effective by displaying them in lines so that the bars of color shall tell for all they are worth.

The art of window dressing we have learned from the French. Two things are necessary, a sense of color in masses and by contrast and an appreciation of the value of forms repeated. These Americans are getting, and it marks progress on the way to becoming an artistic people. A glove shop and a place for women's gear is a case in point. The window is laid in black. On small raised stands are long black silk stockings folded with hanging ends, and on each of these are perched long, yellow kid gloves knotted exactly in the same way. Above these, which suggest, by the way, pre-Raphaelite flowers in a foreground, are black knitted silk vests, hanging like banners between the long yellow gloves, which have the effect of streamers. In the center of all is another vest, crossed by a magnificent pair of yellow embroidered garters. The window, with its repeated yellow and black, might serve for an Austrian rally.—New York Press.

YELLOW JACK.

TERRORS FOR THE PEOPLE OF THE STRICKEN CITY.

The Situation no Better.—Increase of Death Rate.—A Case Reported at Fernandina.—Condition of the Sick at Camp Perry.—Government to Pay for Buildings Destroyed.

WASHINGTON, August 28.—Reports received at the Marine Hospital Bureau from Jacksonville, Florida, show that there are now under treatment sixty-four cases. The total number of cases to date is one hundred. Dr. Neal Mitchell, at Jacksonville, telegraphs that he received a report from Camp Perry, Sunday night, and that many people in Jacksonville desire to go to the camp. Dr. Hamilton says that the report that no one is to leave Jacksonville is incorrect. He said that a special train has been chartered by the Marine Hospital Bureau to run daily between Jacksonville and Camp Perry, in order to allow all persons desiring to leave Jacksonville to take that route. He said that the railroad companies are having extreme difficulty in running trains owing to the conflicting local health regulations which prevent their stopping when they carry passengers. This, he added, necessitated the government taking part of the work.

Reports show that seven refugees were received at Camp Perry.—Friday, and twenty-eight Saturday. One case of yellow fever arrived at the camp from Jacksonville Saturday and was removed to that city the next day.

Mayor Lester, of Savannah, telegraphs that he is informed that Fernandina has a case of yellow fever. Dr. Hamilton telegraphed in reply, authorizing him to send a competent inspector to Fernandina at the expense of the Marine Hospital Bureau.

The Situation No Better.

JACKSONVILLE, Fla., August 28.—The little yellow fever is getting unaccountably numerous and close to our representative's office. Considerable excitement was caused by the report that S. F. & W. railway had withdrawn all trains from Jacksonville. No passengers are carried on the train, which is carrying refugees from here to have to go to the camp and remain there ten days before being permitted to go North. This has been done on account of the Way Cross authority, who threaten to stop the trains entirely if they run into this city. By this means people can still go North, though the quarantine camp has as many terrors for most people as this city. The situation seems no better, and the flies seem to increase very fast. All seem mild, though, but apprehension is not felt less it turn into a malignant type.

The special health train will be run by the government from here to camp, daily. It is said that the United States authorities have sent word that all buildings destroyed will be paid for by the National Government. Good news and cheering, if true.

The Latest Reports.

JACKSONVILLE, Fla., August 18.—Two new cases of yellow fever were reported to noon yesterday and two deaths. Albert Fisher, fireman, died in the morning, and E. McArthur, Lavilla, died late at night. The new railroad quarantine is all the talk now among the city.

MICHIGAN FOREST FIRES

Sweeping Out Thousands of Acres of Timber Land in the Peninsula and Scorching Several Villages.

NOBLESBURG, Mich., August 28.—It is difficult to get reports about the forest fires near Noblesburg, but it is believed they are worse than at first reported. Several buildings were burned last night and the village is going by piecemeal. A number of families living on farms near the village escaped with but their clothes, and are now being cared for at Powers. Owing to the flames and smoke it is impossible to tell whether the people live farther back from the settlements have lost their lives or not. The heaviest individual losses are the Menasha Wooden Ware Company and Ballou & Carney. The former lost \$12,000 on buildings and wood. The latter and Northwestern Railroad Company lost \$15,000 on cars and buildings. The latter lost \$15,000. The family of seven reported missing from Mumford, have not yet been heard from.

Loss of Life Feared.

MARQUETTE, Mich., August 28.—Forest fires are raging along the railway lines in the peninsula. At Mumford, twenty-five buildings burned, causing a loss of \$15,000, with little insurance. At Carney, the Menasha Wooden Ware Company, lost 500 cords of staves and lumber for \$4,000. Brown & Co., in Lark and cedar posts, lost \$2,000. It is feared that in the back districts there will be loss of life.

FINANCE AND COMMERCE.

New York Money and Stock Market.

Money unchanged. Governments steady; 60 to 120, bid, 125 to 130. Pacific bonds closed: First 115 to 117, grants 108 to 109, fund 120 to 122, central 115 to 117. The stock market opened 1/4 to 1/2 per cent. higher than it closed Saturday, and during the first 30 minutes prices made further gains in some cases of 1/4 to 1/2 per cent. About 10 o'clock the market was hammered by the bears on reports that its next dividend will be at a reduced rate. For a time this hammering had the effect of retarding the advance, but subsequent buying of St. Paul sent prices up again and by noon values were up 1/4 to 1/2 per cent. The market was moderately active yesterday afternoon and continued firm. Lackawanna and Western Union were the features of the afternoon dealings. They were actively bought and under their lead prices advanced steadily. The advance as compared with Saturday night's figures ranged from 1/4 to 1/2 per cent. Total sales 371,371 shares.
